

Jill Meals-Herron in January issue of MFE

January 29, 2014

Indianapolis, IN – Jill Meals-Herron, [Flaherty & Collins](#) Vice President of Property & Asset Management, appears in the January 2014 issue of MFE (Multifamily Executive).

The feature article, “Order in the Courtyard” discusses how property managers must remain calm during the chaos of everyday events that take place (p. 28).

As one with oversight on the property managers, Jill knows firsthand the kind of clarity and overall thought process required in the event of a natural disaster – or the completely unexpected.

“You have to make sure that people who are relaying information are calm,” Meals-Herron says in the article by Lindsay Machak . “It’s easy to lose your head in a situation very quickly.”

MFE highlights the response of Flaherty & Collins to a flash flood in Ft. Wayne in June 2013 as a model of how to react and handle these crisis management situations.

MFE is a monthly publication that covers every segment of the multifamily residential and commercial design and construction industry.
